

1. KLOVE provides us with positive Christian music & information. Our family enjoys it enough that we regularly contribute financially to its continued existence.
2. Because we live in a small market that is remote from most metropolitan areas, it is difficult to get quality radio broadcasts of any kind. KLOVE provides a source for entertainment & news that our whole family can agree on & listen to. Our area of the country does not have any similar radio sources that the entire family can agree on.
3. KLOVE is in the best interest of the public because it provides a positive, unbiased view of world events while also providing a means of entertainment free from much of the immoral music that exists on other stations. Parents need such stations that their children can listen to without the need for constant parental monitoring of the contents of the lyrics or the opinions from the broadcasters. There is a silent majority of citizens that want continued family-oriented music & news on such a great station as KLOVE. Please do NOT replace our station with an LPFM.
